

# sps ipc drives

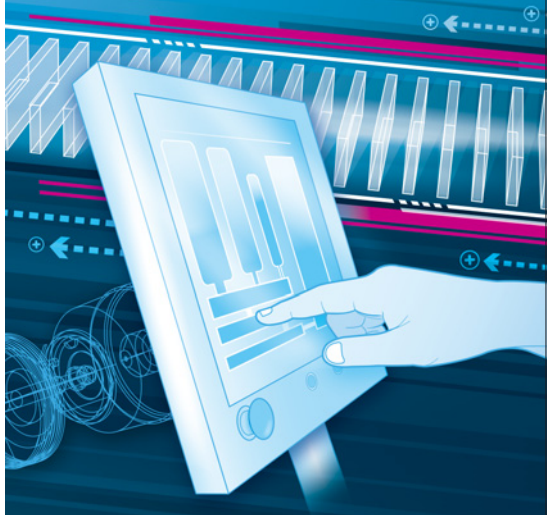

Electric Automation  
Systems and Components  
International Exhibition & Conference

## Visitor information

Nuremberg, 27–29 November 2012  
[www.mesago.com/sps](http://www.mesago.com/sps)

### Answers for automation

# The whole spectrum of electric automation technology

## Welcome to SPS IPC Drives 2012

### Visit – See – Experience – Compare – Evaluate

Visit the leading exhibition for electric automation technology.

With more than **1,400 exhibitors** you will gain a unique overview of the single components down to complete systems and integrated automation solutions.

Look forward to professional advice and intensive technical discussions in the search for your individual automation solution.

Compare and evaluate products and solution statements of various exhibitors.

Use this ideal platform for a personal exchange of information and prepare your investment decisions in an optimal way.

The current exhibitor list as well as further information on SPS IPC Drives 2012 are available at [www.mesago.com/sps/visitors](http://www.mesago.com/sps/visitors)

**Products and solutions, innovations and trends at your exhibition!**

## Exhibition topics

Inform yourself about the latest solutions and trends on:

- Control technology
- IPCs
- Drive systems and components
- Human-machine-interface devices
- Industrial communication
- Industrial software
- Interface technology
- Electromechanical components and peripheral equipment
- Sensor technology

---

»The trade fair in Nuremberg is a very important occasion in the field of electric automation technology. The wide and compact exhibition offers the opportunity to gain information and to establish contacts.«

---

Heinrich Schuster, Director Marketing and Business Development,  
KSB Aktiengesellschaft

# Conference

The biggest user-oriented conference dealing with automation and drives technology is running concurrently to the SPS IPC Drives exhibition. Benefit from innovative solutions and expand your knowledge.

Please be aware that the conference language is German.

For the detailed conference program and the application form please visit [www.mesago.de/sps/kongress](http://www.mesago.de/sps/kongress)

# Extended fringe program

## Exhibition forum

An extensive and informative fringe program awaits you in the exhibition halls. Here you can find out how the industry is currently driven at exciting panel discussions and product presentations.

Please be aware that the language at the forum is mainly German.

More details about the forum program at [www.mesago.com/sps/forum](http://www.mesago.com/sps/forum)

**Wireless in automation**  
in hall 10, booth 10-320

Learn more about the latest wireless technologies and their application in electric automation at the »wireless in automation« joint stand.

Be part  
of this industry  
highlight!

# Exhibition Plan

Main topics are valid for complete halls.

**Control technology**

**Control Electric drives/motion control**

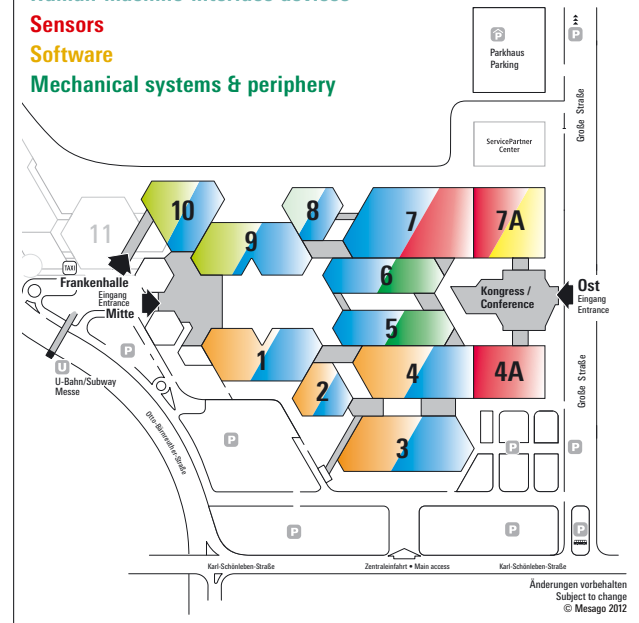

**Interface technology**

**Human-machine-interface devices**

# Your way to SPS IPC Drives

Follow the signs for the exhibition center when you reach the Nuremberg junction or program your navigation system: Destination: 90471 Nuremberg, Karl-Schoenleben-Strasse. A free shuttle service will take you from the parking lots of the exhibition center to the entrance.

Inform yourself about favorable train tickets to Nuremberg at [www.mesago.com/sps/travel](http://www.mesago.com/sps/travel). From the railway station, take the underground line U1/U11 directly to the exhibition center, total journey time 8 minutes.

Book favorable non-stop-flights to Nuremberg from various European metropolitan areas. Benefit from the special conditions of our Airline Mobility Partner – Lufthansa. Take the underground line U2 from the airport to the central railway station and change to the lines U1/U11 that take you to the exhibition center, total journey time 20 minutes.
